## INK JET INKS

After the coding is complete, it's the ink that remains... Make sure its the right ink. Ink Jet Inks from Gem.

### LOOKING FOR THE BEST INK?

The best ink dries fast, survives your production process and runs flawlessly in the printer.

### NEED MORE THAN BASIC BLACK INK?

GEM chemists specialize in pigmented systems. No need to give up printer performance for color.

### ENVIRONMENTAL CONCERNS?

GEM acetone based inks are free of reputable volatile organic compounds (VOC's)

### NOT SURE WHAT YOU NEED?

Let us test our inks on your product. We are happy to print samples and return them promptly for your evaluation. Or bring our printer to your site for a test on line.
